RiverHills Bank

The health and safety of our employees, customers and community are top priorities for RiverHills Bank. In an effort to maintain a safe workplace and encourage practices focused on protecting the health of all involved we are making temporary changes to the operation hours and servicing for our branch locations.

Beginning Friday March 20th only the drive thru windows at each of our branch locations will be open. Each branch will staff and maintain the normal drive thru hours associated with their location. We will also continue to check night depository throughout the day to process deposits.

All other banking services will be available by appointment only. Please call your local branch to set up an appointment. See below for a listing of branch numbers.
